Key Features

An innovative approach to teaching Computing and ICT written by a team of educators.

Follows latest Computing and ICT teaching standards & requirements.

Each book has four or five modules. Each module provides a range of tasks and activities that help students to develop their Computing and ICT skills and allow teachers to monitor the students' progress.

Clear learning objectives and functional skills.

Clear explanations and illustrative contemporary examples. The activities are based on school subjects taught in each grade.

New content continually updated according to changes in technology.

Students learn how to work with many different platforms and tools. The online video tutorials guide the students through each task.

2. Let's start

Computing and ICT - Sample Pages
DIGITAL KIDS STARTER MODULE 2

1
GRADE

TASK 1

My desktop

This is my desktop.

I always start my work here.

Match.

TASK 2

Start a program

To start a program

double-click its icon.

The program window.

Minimize the program.

Maximize the program.

Close the program.

Text and pictures

Your digital files for learning and having fun.

Match.

TASK 4

My workspace

Keep your computer and desk clean.

Be careful with the cables.

Don't eat or drink in the computer room.

Sit in the correct way.

Who is right? Check with ✓.

Who is wrong? Check with ✗.

2. I type a letter

TASK 1

Start typing

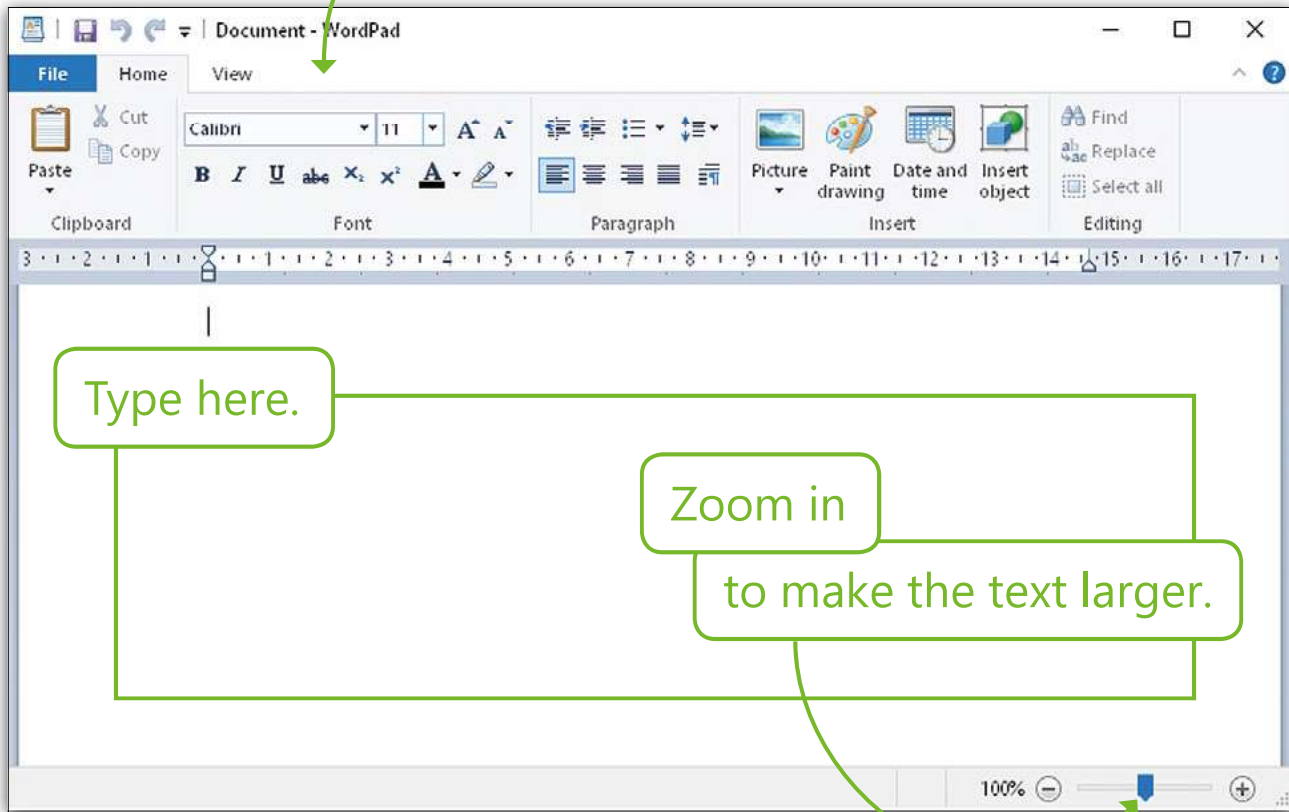

Let's start WordPad!

1

My tools in **WordPad**.

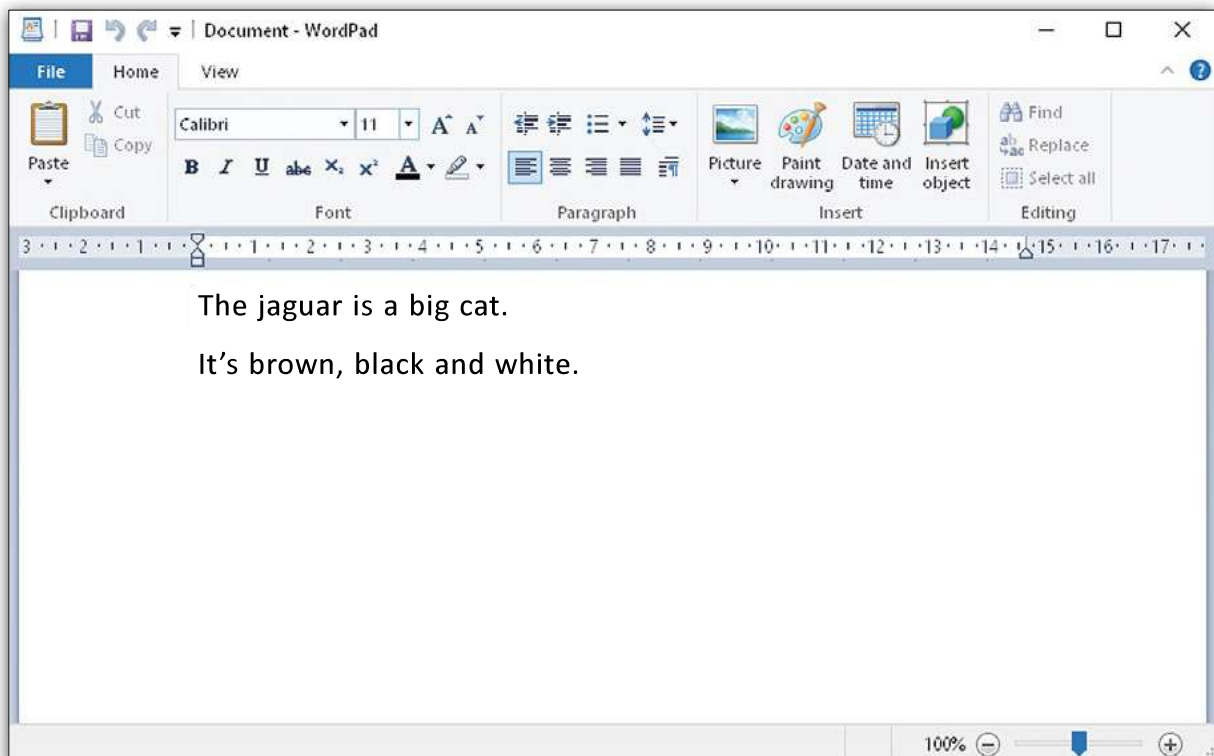

Type here.

Zoom in

to make the text larger.

Type this text.

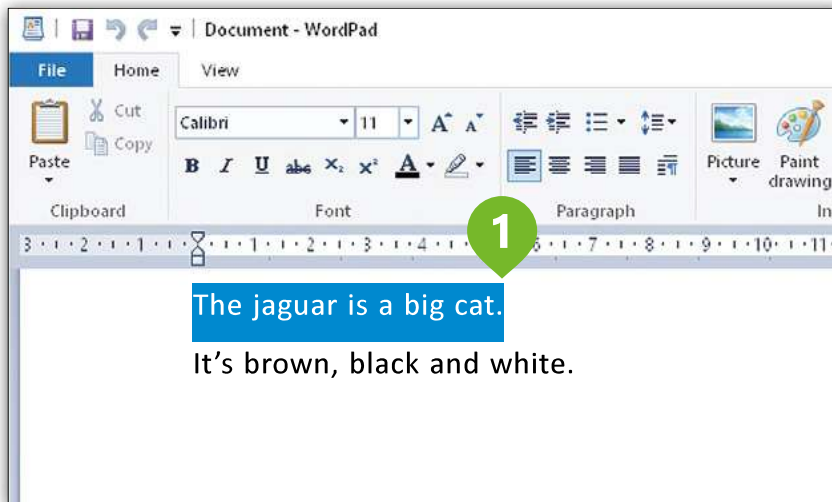

The jaguar is a big cat.

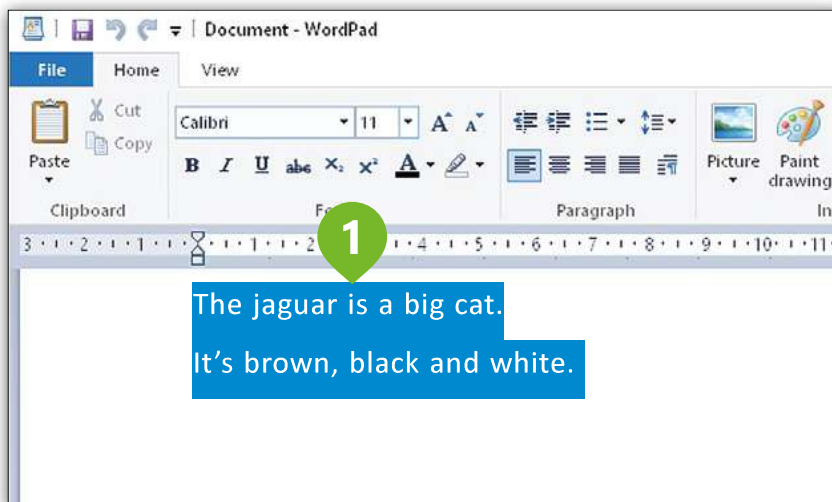

It's brown, black and white.

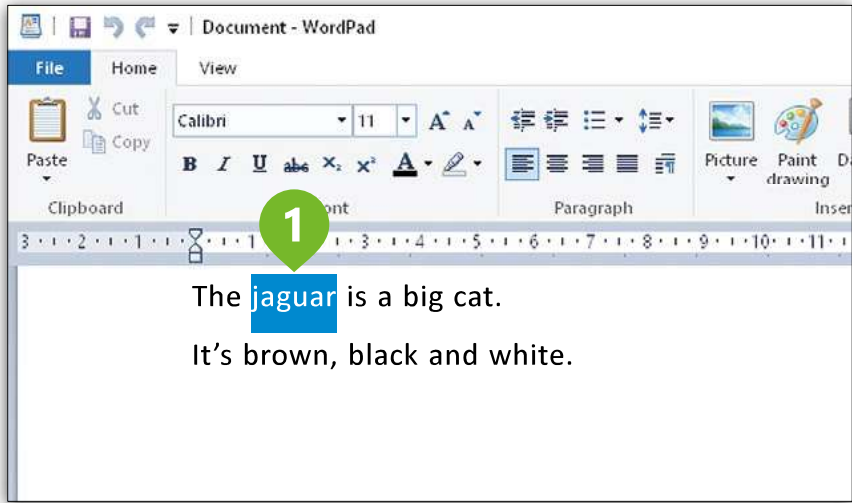

Use the mouse to select some text.

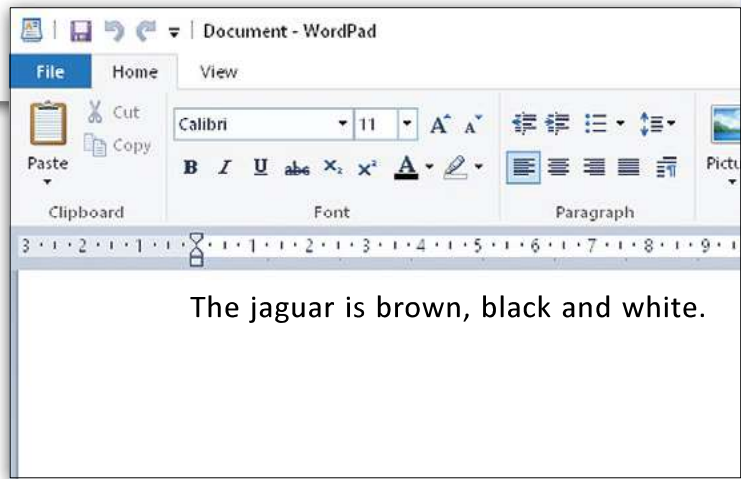

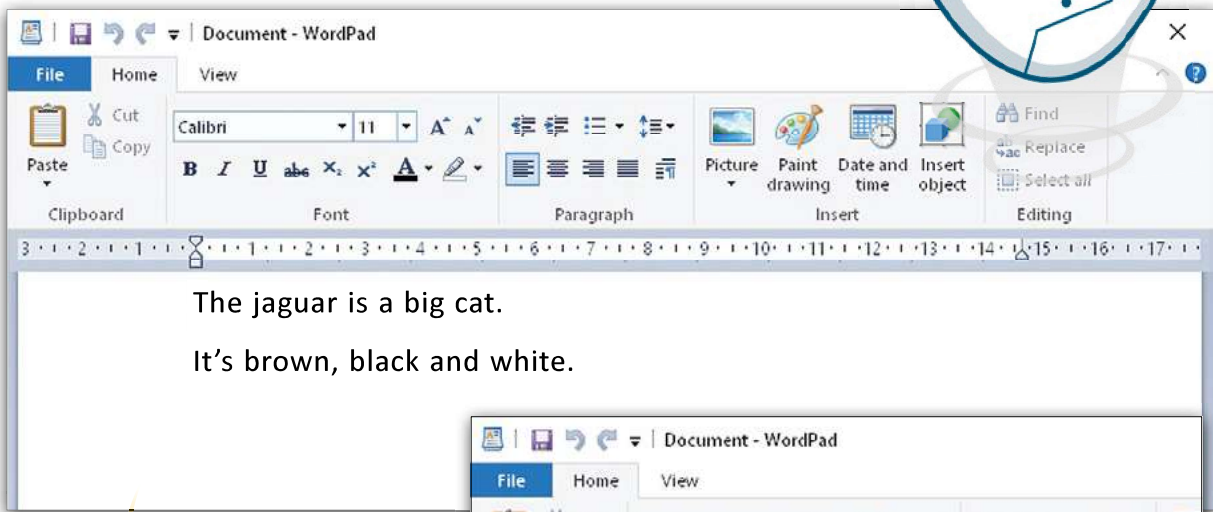

Press Ctrl+A to select all the text.

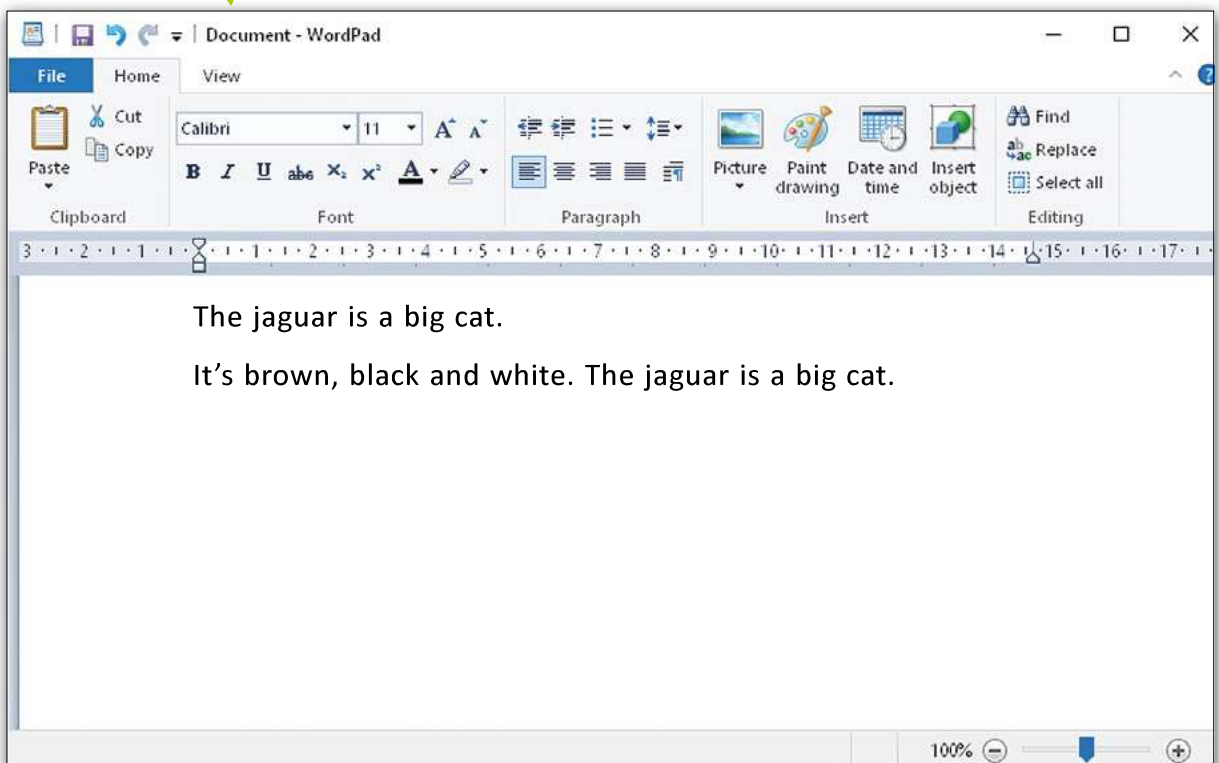

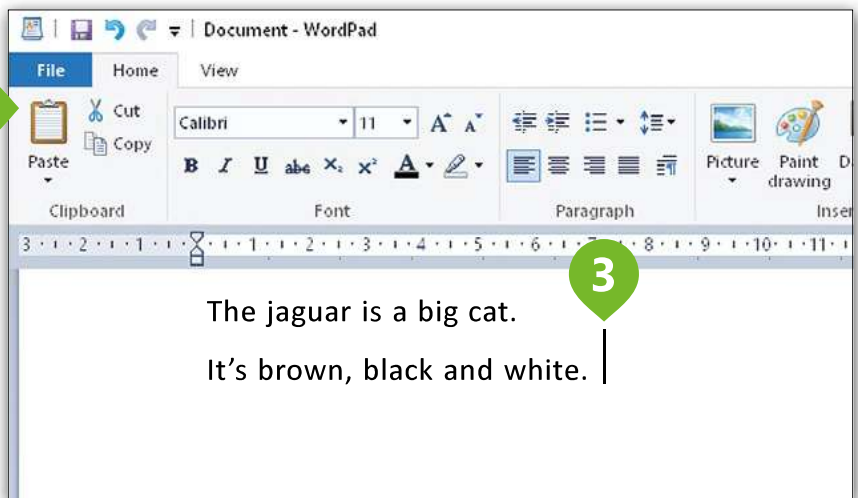

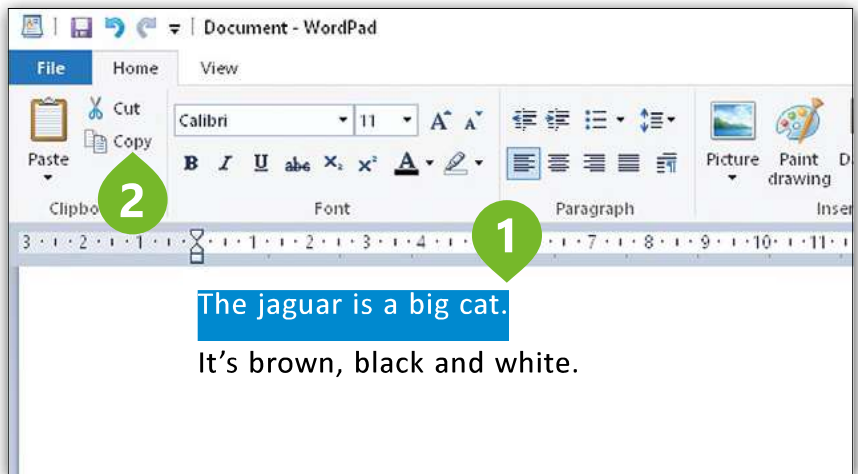

Double-click to select a word.

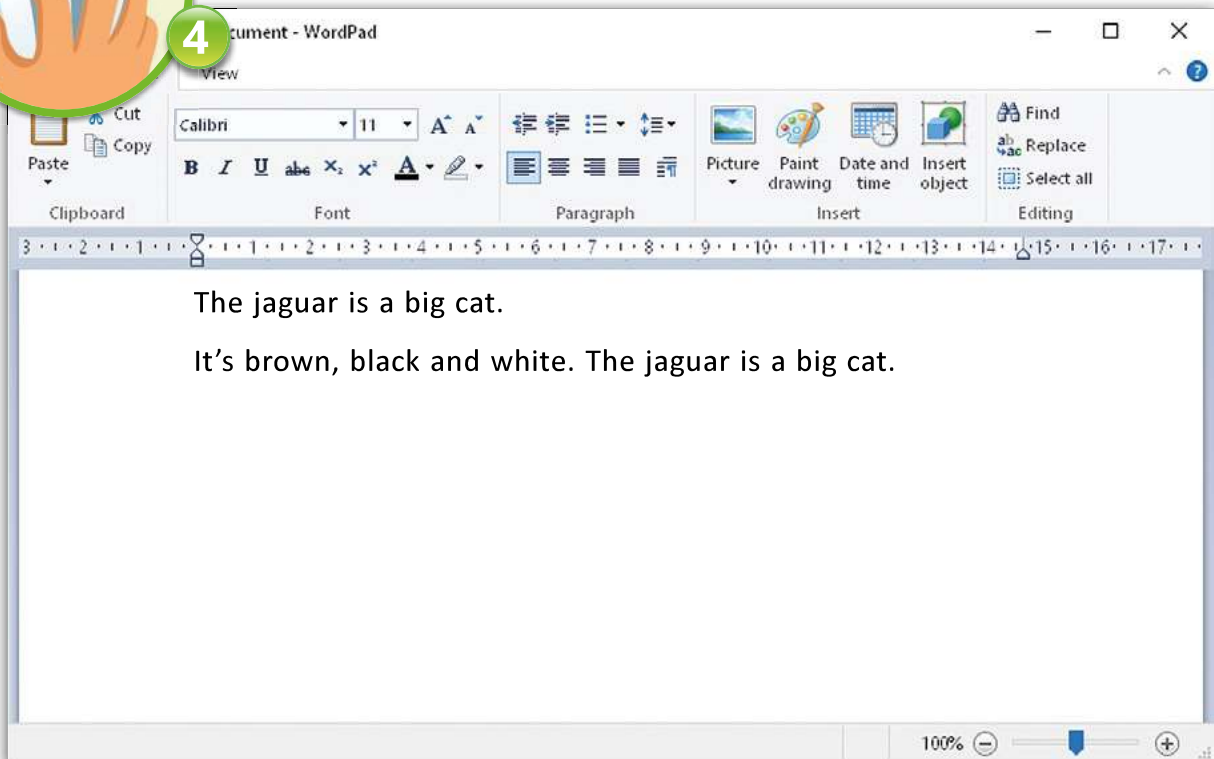

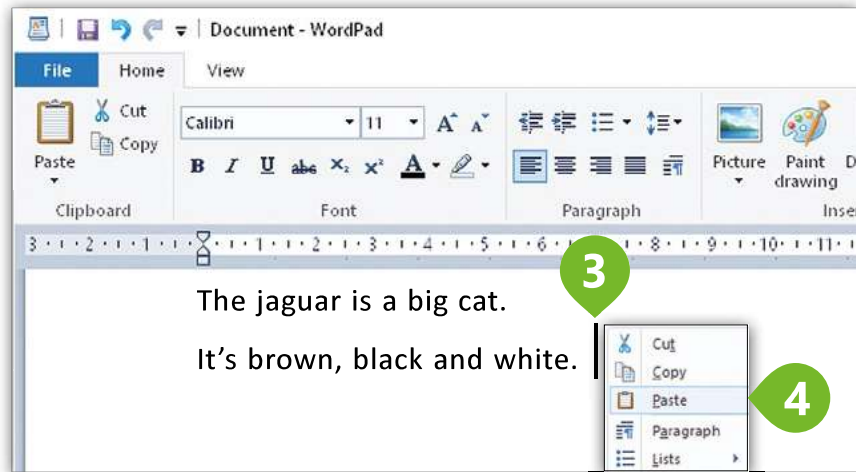

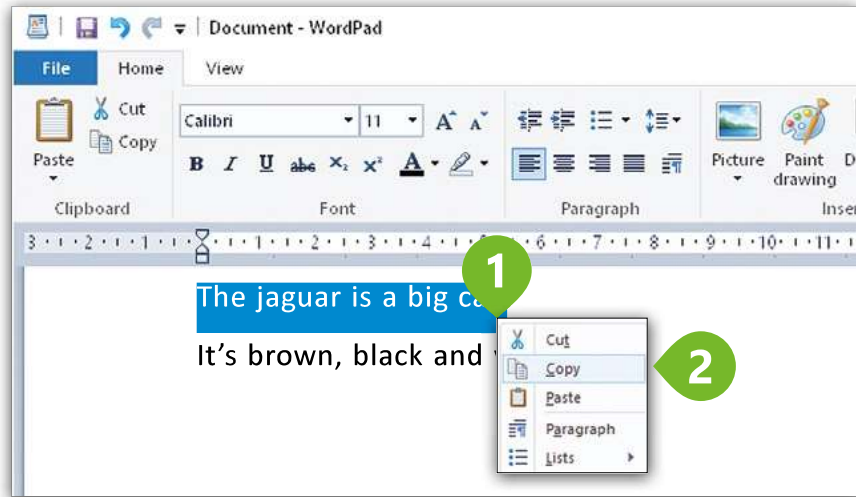

Delete some text.

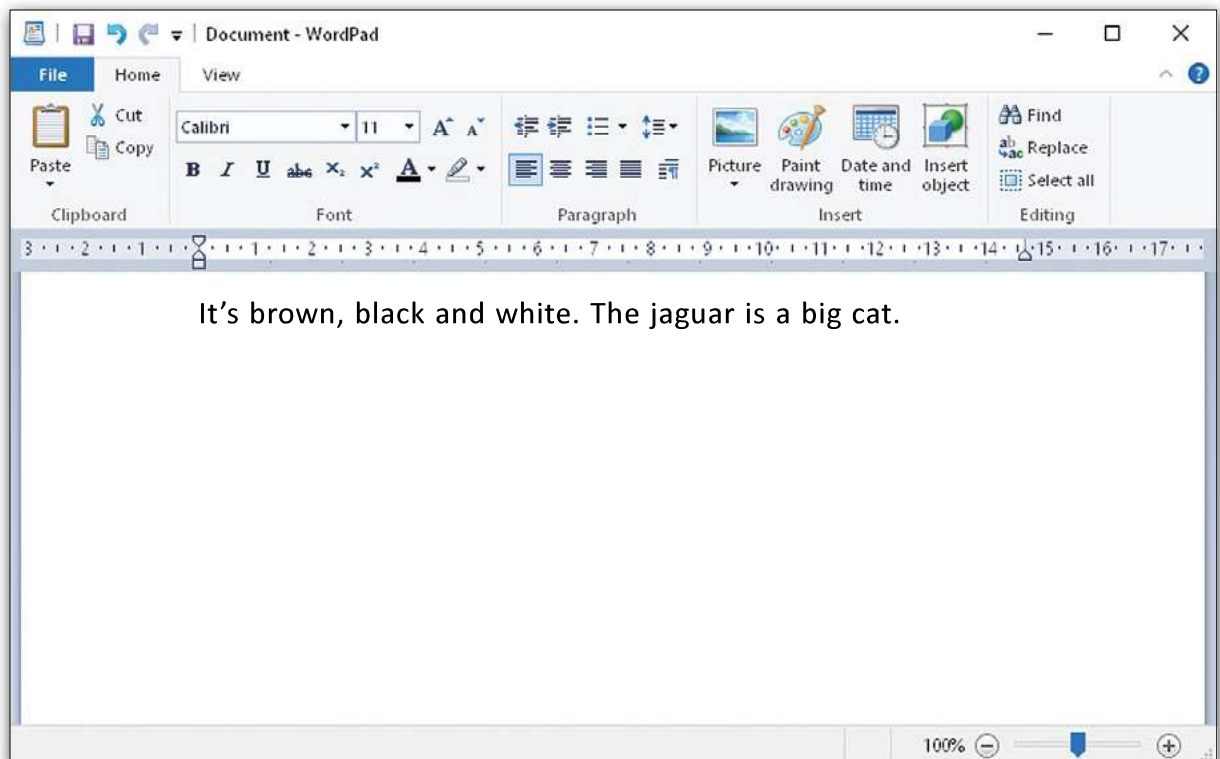

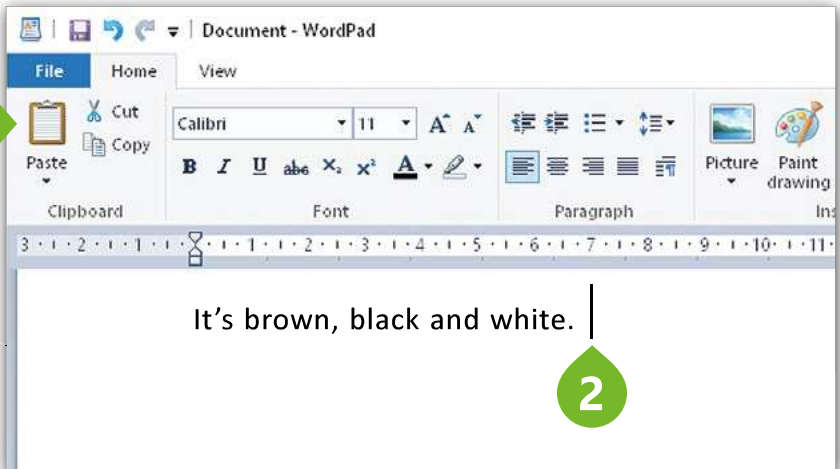

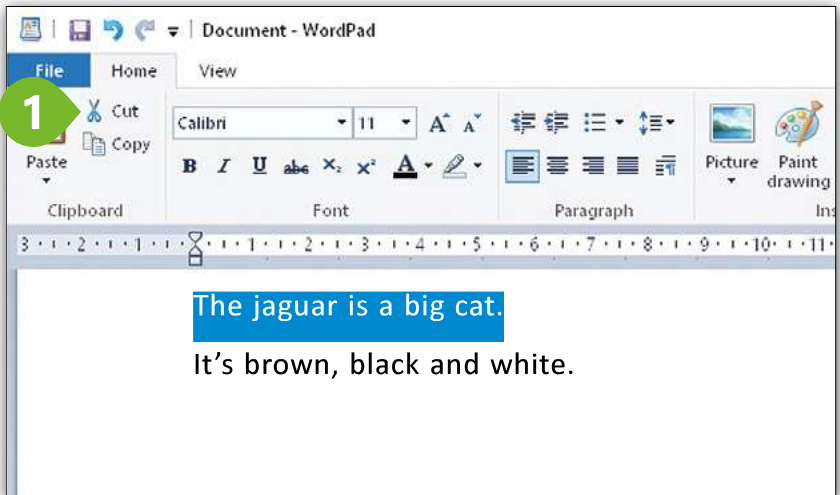

Use the mouse to copy some text.

Use right-click to copy some text.

Cut and paste some text with the mouse.

Type the rhyme twice.

The first screenshot shows a WordPad window with the text "Row, row, row your boat, Gently down the stream." The second screenshot shows the same text repeated twice. A yellow arrow points from the first screenshot to the second.

Put the text in the correct order.

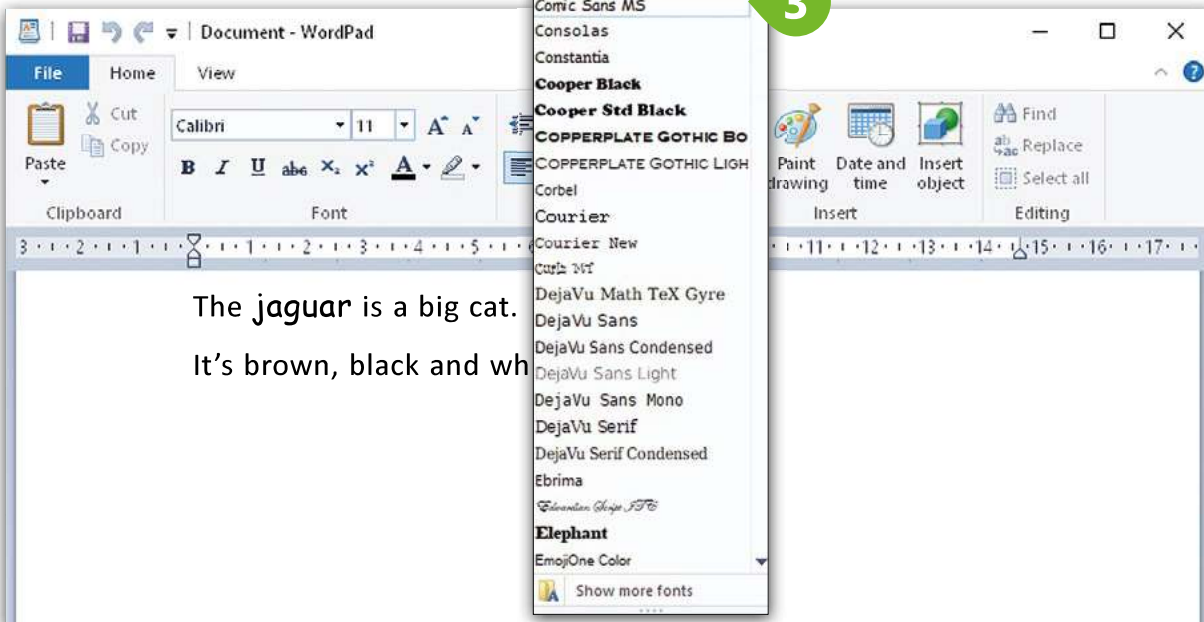

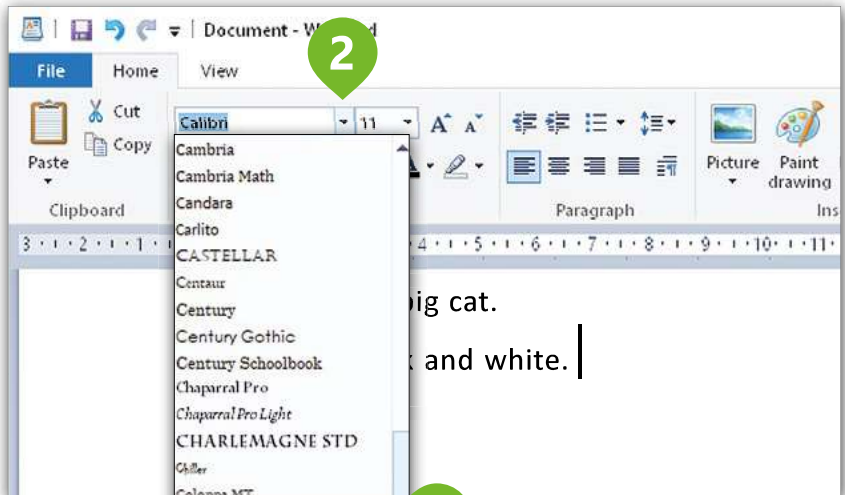

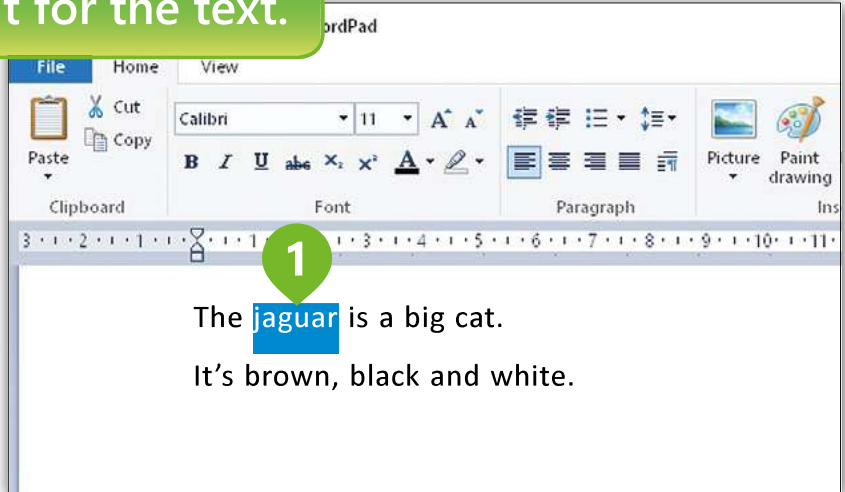

The first screenshot shows a WordPad window with the text "It's brown, black and white. The jaguar is a big cat." The second screenshot shows the text rearranged to "The jaguar is a big cat. It's brown, black and white." A yellow arrow points from the first screenshot to the second.

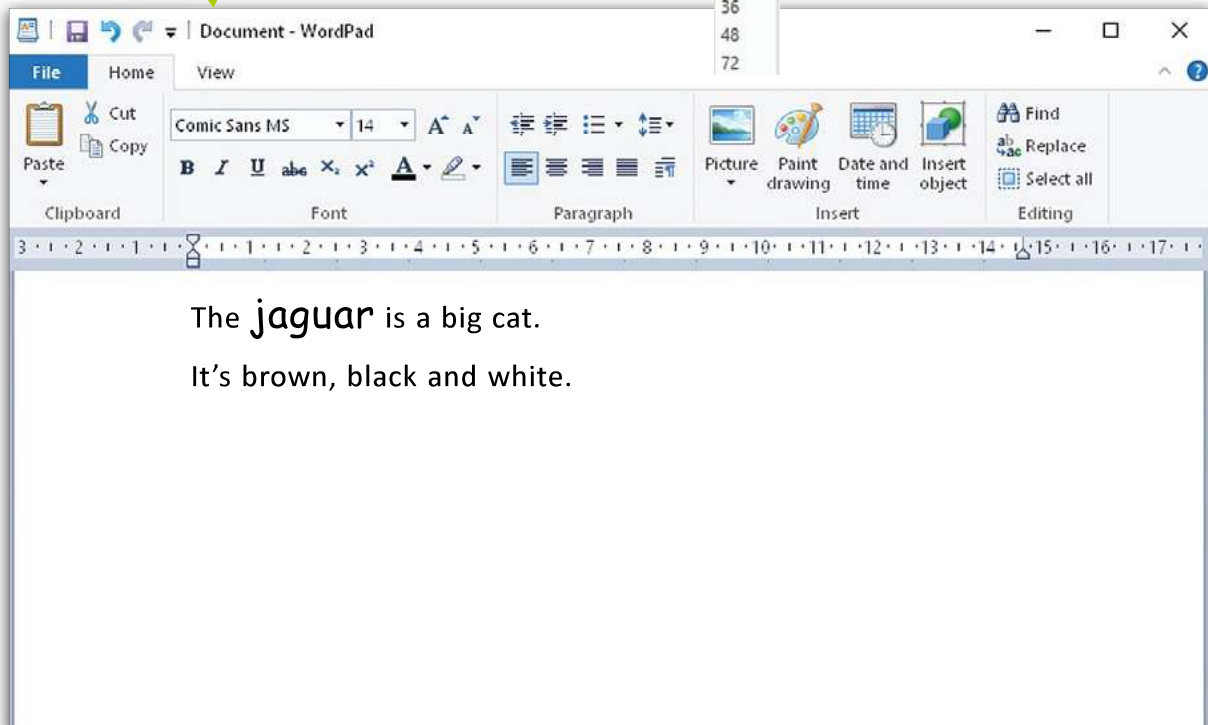

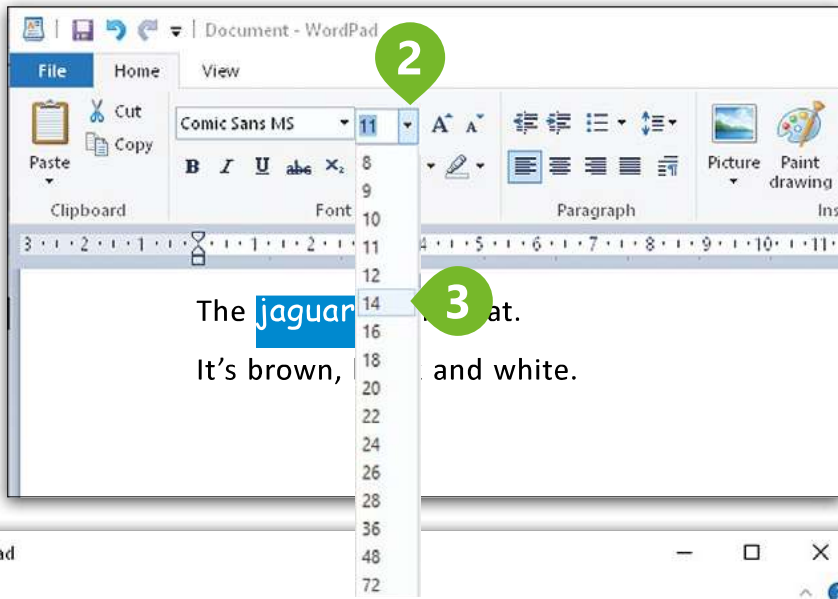

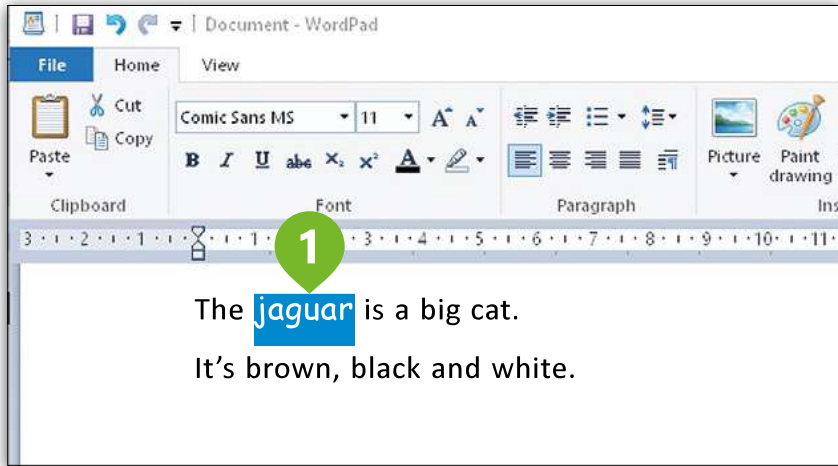

TASK 2

Change the font

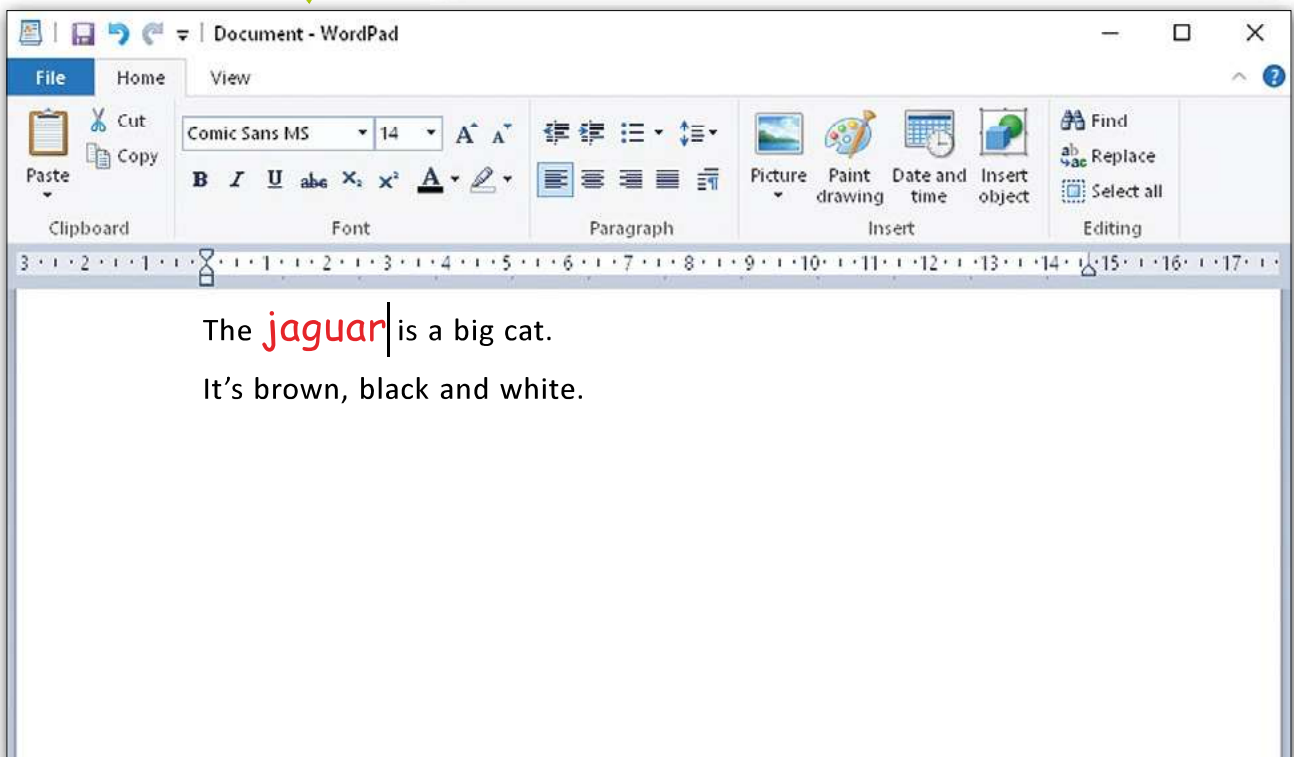

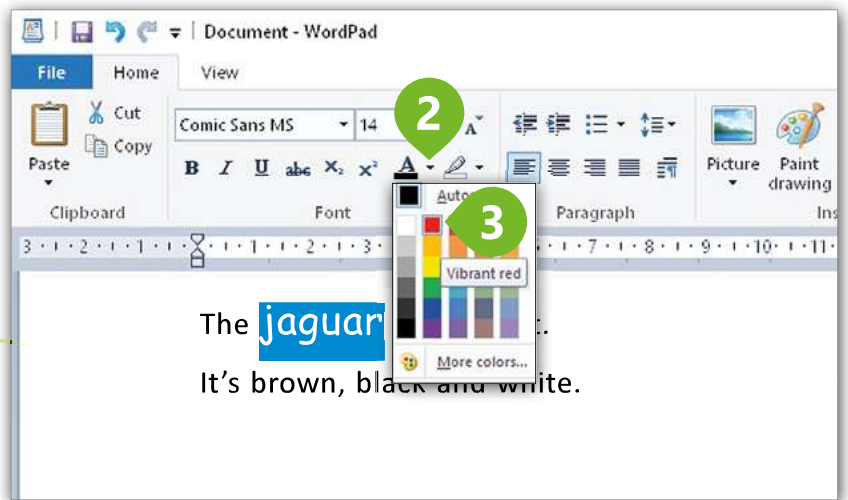

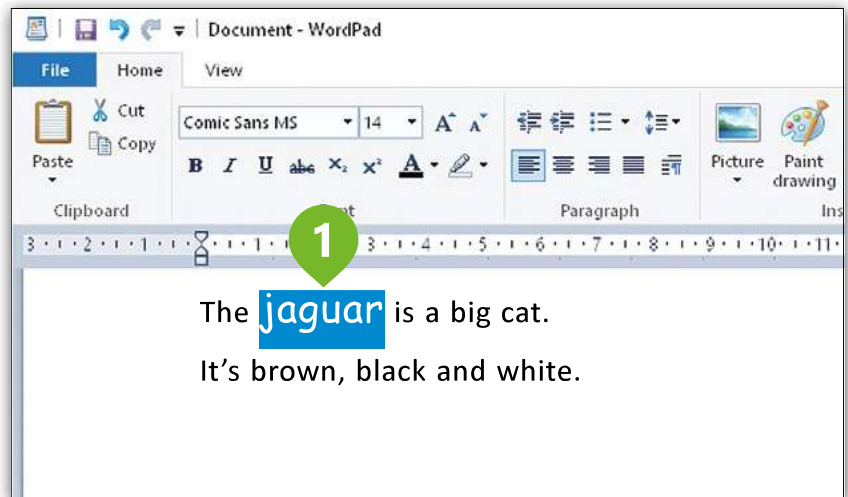

Pick a new font for the text.

Change the size of the text.

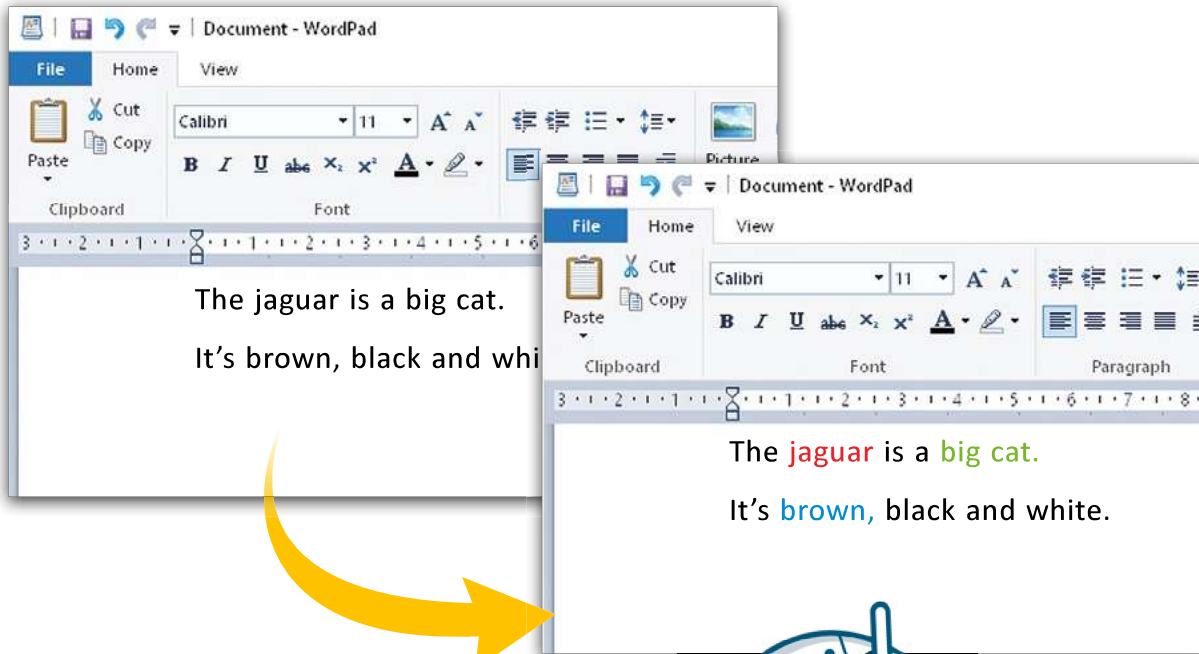

Change the text color.

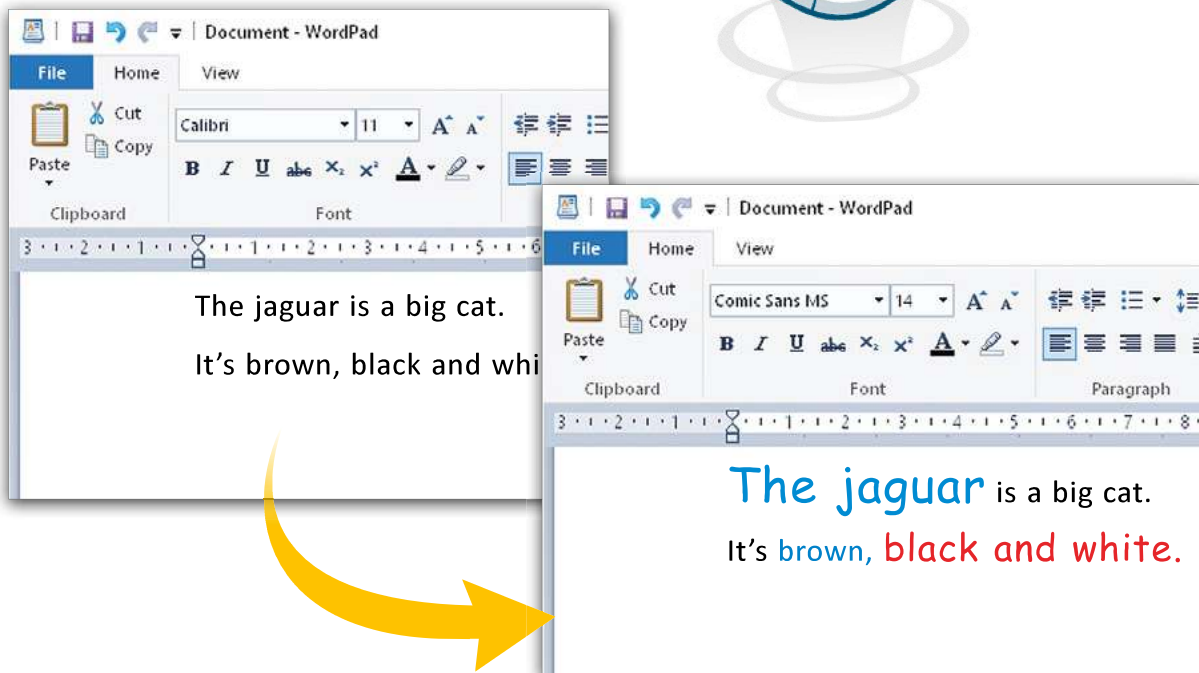

Color your text.

Change your text.

TASK 3

Insert pictures

Insert a picture from a file.

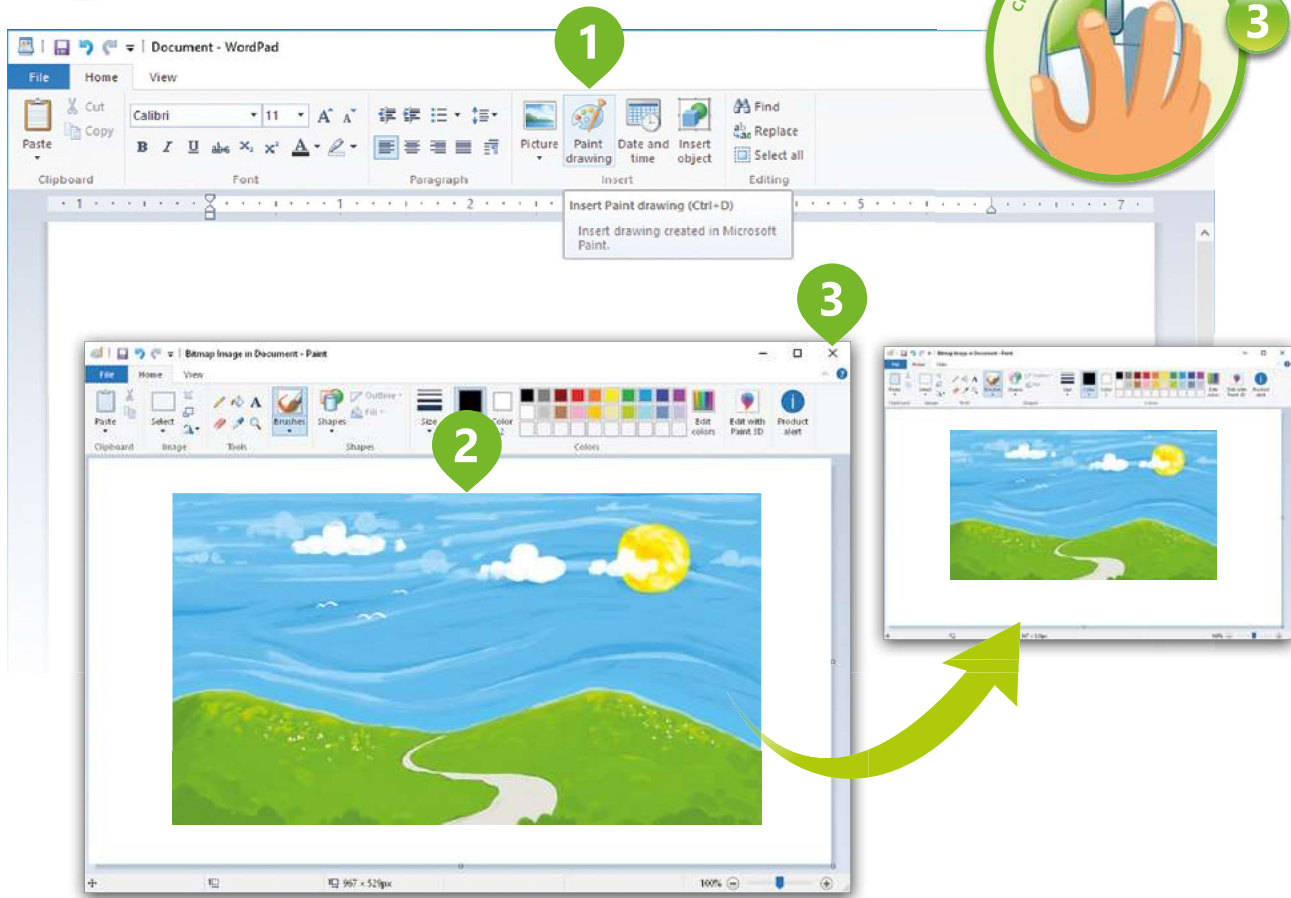

1

2

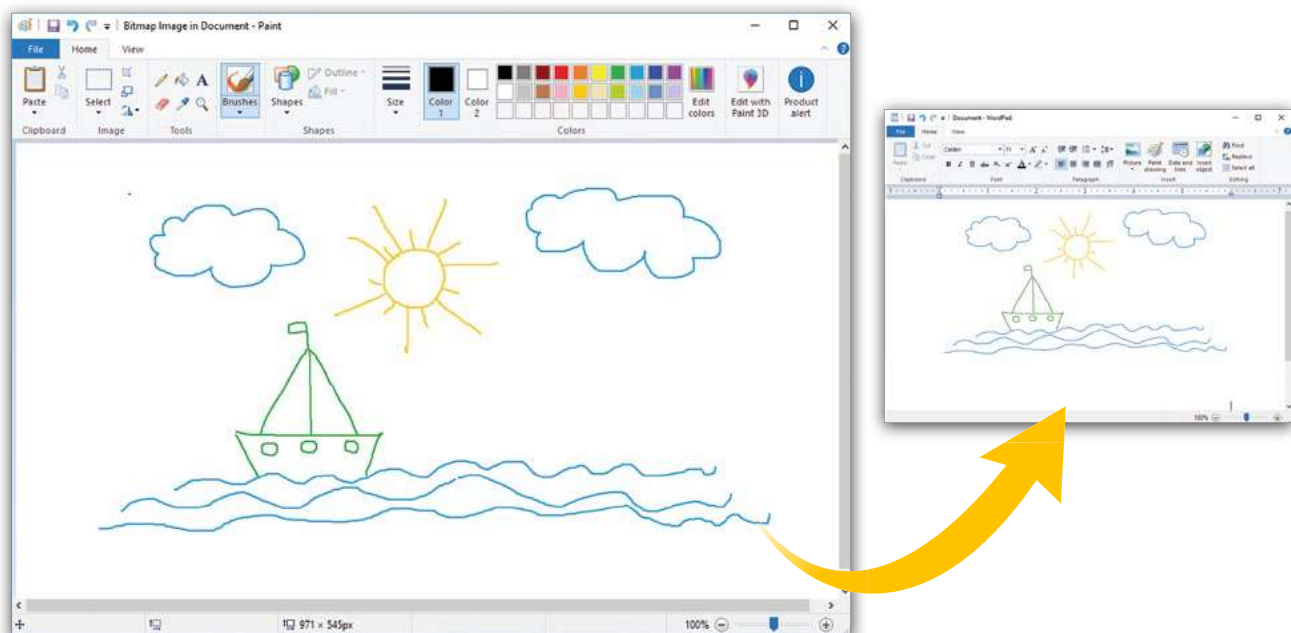

3

4

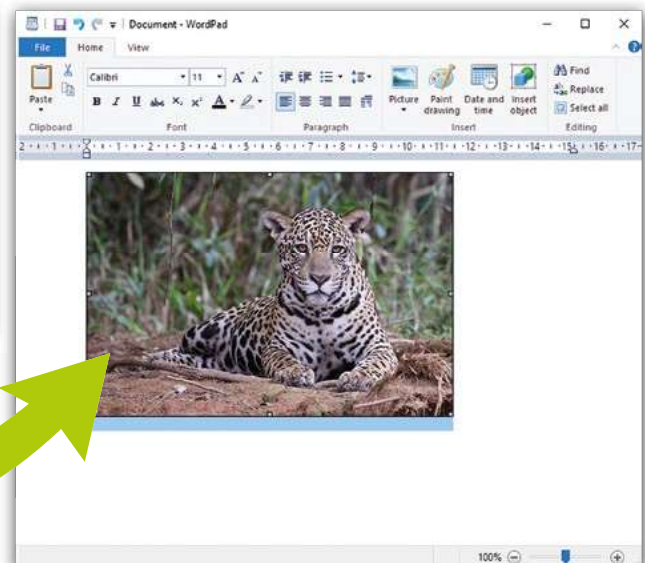

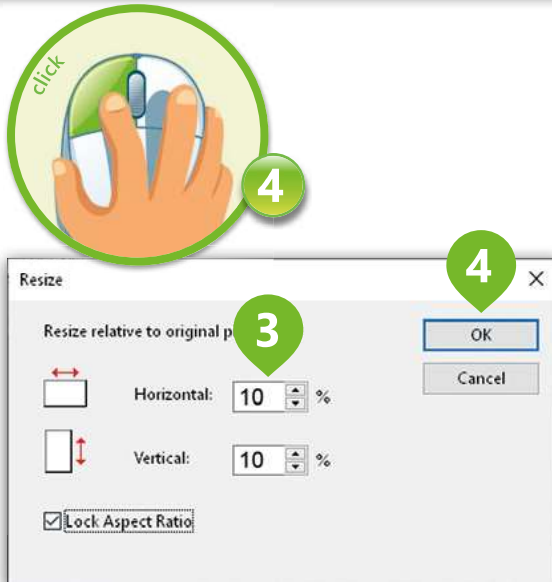

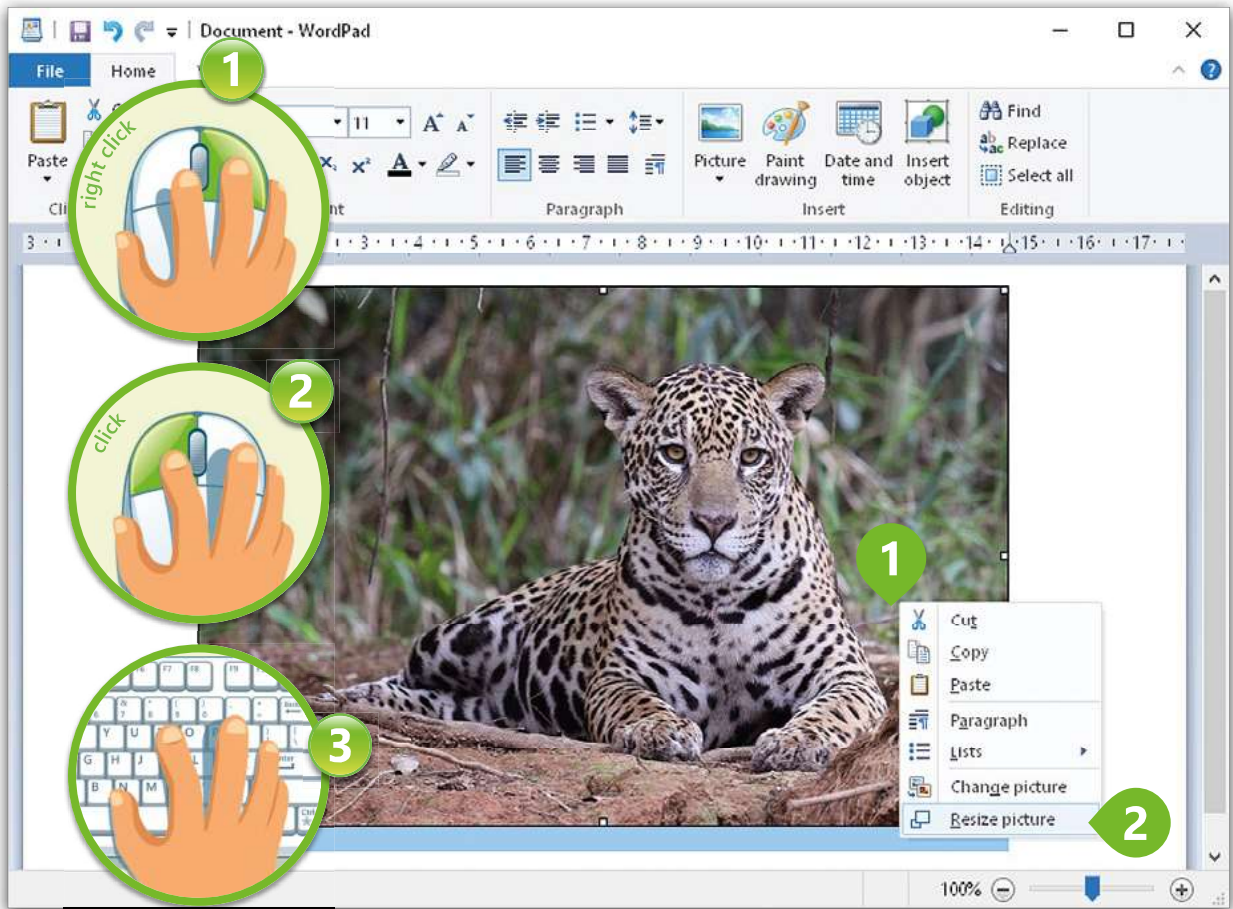

Insert a drawing from Paint.

Insert a Paint drawing.

Scale height and width of a picture.

Resize a picture with the mouse.

The image shows a WordPad window with a tiger picture. Three numbered steps illustrate the process:

- 1** click: A hand icon is shown clicking the mouse button.
- 2** press and drag: A hand icon is shown holding the mouse button down and moving it.
- 3** release: A hand icon is shown releasing the mouse button.

Arrows indicate the sequence: from step 1 to the picture, from step 2 to the bottom-right corner of the picture, and from step 3 to the bottom-right corner of the picture. A large green arrow points from the bottom-right corner of the picture to an inset window showing the final resized picture.

Resize your picture.

The image shows two WordPad windows side-by-side. The left window shows a drawing of a sailboat on water. A yellow arrow points from the left window to the right window, which shows the same drawing but with a larger size.

TASK 4

Save and print

Save your document.
